A STATE OF THE PARTY OF THE PAR

This is the first edition of Airport Activity Statistics. It contains statistical data relating to the top twenty-five airports in Canada from 1963 through the calendar year 1968. The top twenty-five airports were determined by ranking total arriving plus enplaned passengers during 1968

Section I deals with scheduled and mainline passengers, mail and cargo. Section II deals with total aircraft movements. The airports listed in Section II are the same as those contained in Section I and therefore are not necessarily the top twenty-five airports in terms of total aircraft activity. The airports in both sections are in alphabetical order.

This edition is in loose-leaf form to permit the addition of pages for subsequent years.

The data in Section I have been compiled from reports filed with the Canadian Transport Commission (Air Transport Committee) under authority of the Aeronautics Act. It is published on behalf of the C.T.C. and the Department of Transport.

The aircraft movement statistics in Section II were compiled from Daily Air Traffic Records completed by Department of Transport Air Traffic Controllers and Airport Managers.

A glossary of terms at the back of the publication explains terminology used in both Sections.

Suggestions are welcomed and will receive consideration with respect to any aspect of this publication.

The photograph on the cover page is the new Vancouver International Air Terminal and was supplied by the Information Services Division of the Department of Transport. Cette première édition des Statistiques de l'activité des aéroports contient des données numériques enregistrées de 1963 à 1968, aux 25 aéroports les plus importants du Canada. L'importance des aéroports a été déterminée en fonction du nombre total des passagers arrivés et embarqués en 1968.

La première partie de la publication porte sur les passagers, le courrier et les marchandises transportés par vols à horaire fixe et de ligne principale. La deuxième partie traite des mouvements d'avions. Les aéroports énumérés dans la deuxième partie, les mêmes que ceux de la première, ne sont pas nécessairement les 25 les plus importants du point de vue du nombre de mouvements d'avions. Dans les deux parties, les aéroports sont énumérés dans l'ordre alphabétique.

La présentation, sous forme de reliure à feuilles mobiles, permettra aux usagers d'y ajouter les feuilles concernant les prochaines années, au fur et à mesure de leur parution.

Les données de la première partie sont tirées des rapports présentés à la Commission canadienne des transports (Comité des transports aériens), en vertu de la Loi sur l'aéronautique, et sont publiées pour le compte de la Commission canadienne des transports et du ministère des Transports.

Les mouvements d'avions paraissant dans la deuxième partie sont tirés des rapports quotidiens établis par les contrôleurs de la circulation aérienne et les directeurs d'aéroports du ministère des Transports.

Un glossaire, à la fin du volume, définit les termes techniques utilisés dans les deux parties.

Nous tiendrons compte de toute observation que les lecteurs voudront bien nous communiquer à propos de la forme ou du contenu de ce volume.

La photo sur la page-couverture fait voir la nouvelle aérogare de l'aéroport international de Vancouver, et est une gracieuseté de la Division des services d'information du ministère des Transports.

ACKNOWLEDGEMENT

This publication is an historical record of statistics pertaining to selected Canadian airports, compiled from reports filed with the CANADIAN TRANSPORT COMMISSION (Air Transport Committee) under authority of the Aeronautics Act and published on behalf of the CTC and DEPARTMENT OF TRANSPORT. Publication was made possible through the efforts of many airline personnel, air traffic controllers, clerks, and statisticians. Special thanks is due to those responsible for the format, typing, and drafting of the graphs.

The Aviation Statistics Centre is located at 275 Slater Street, 12th floor, Ottawa, Ontario.

ATTESTATIONS

La présente publication constitue un historique des statistiques portant sur des aéroports canadiens sélectionnés, basé sur des rapports déposés auprès de la COMMISSION CANADIENNE DE TRANSPORTS (Comité des transports aériens) en vertu des dispositions de la Loi sur l'aéronautique et publié au nom de la Commission canadienne des transports et du MINISTERE DES TRANSPORTS. La publication est attribuable aux efforts d'une multitude de membres du personnel des lignes aériennes, de contrôleurs de la circulation aérienne, de commis et de statisticiens. Ceux qui se sont chargés de la présentation, de la dactylographie et de la préparation des graphiques ont droit à des remerciements particuliers.

Le Centre des statistiques de l'aviation est situé à 275, rue Slater, 12e étage, Ottawa (Ont.).

Glossaire

SCHEDULED PASSENGERS, MAIL AND CARGO

This Section presents the volume of passengers, mail and cargo, and the number of flights generated by regularly scheduled air traffic in the survey at the various airports.

CRITERIA FOR INCLUSION OF DATA

The data contained herein relate to regularly scheduled international and mainline domestic flights. "Mainline" refers to all Class 1 services, as well as most Class 2 services provided by Group A aircraft with a considerable degree of regularity.

COLLECTION OF DATA

The data concerning international flights were collected on a census basis from the individual air carriers concerned. The data concerning domestic flights were collected on a mixed 15 per cent sample and census basis. The sample is such that each day of the week is sampled twice each quarter and there is at least one sample day in each week.

CHARACTERISTICS OF THE DATA

The statistics presented were derived for the most part from traffic flow analysis of individual flights. At airports where flight numbers changed all traffic on board was reported deplaned as well as arrived. Conversely, where a flight number originated all traffic enplaned was equal to the departed load. Thus enplaned and deplaned values were directly influenced by changes to flight scheduling made by carriers in the survey.

Beginning with the third quarter of 1968, Air Canada began reporting traffic transferred from their own connecting flights, with newly enplaned traffic. This results in a significant increase in enplaned mail and cargo in the third and fourth quarters of 1968, at some airports.

PARTIE I

PASSAGERS, COURRIER ET MARCHANDISES TRANSFORTÉS

PAR VOLS A HORAIRE FIXE

Cette partie indique le nombre des passagers, le volume du courrier et des marchandises et le nombre des vols des services aériens à horaire fixe compris dans le relevé effectués aux différents aéroports.

LE CHOIX DES DONNÉES

Les chiffres donnés plus bas concernent les vols internationaux et les vols intérieurs de ligne principale à horaire fixe. "Ligne principale" désigne tous les services de la classe 1, ainsi que la plupart des services de la classe 2 assurés par des avions du groupe A, avec une grande régularité.

LE RASSEMBLEMENT DES DONNÉES

Les données concernant les vols internationaux ont été recueillies par le détail auprès des compagnies aériennes intéressées. Les données portant sur les vols intérieurs ont été rassemblées soit par échantillonnage à 15% soit par le détail. L'échantillonnage est conçu de telle façon que les chiffres de chacun des jours de la semaine sont recueillis deux fois par trimestre. En outre, un jour au moins dans chaque semaine est échantillonné.

CARACTÉRISTIQUES DES DONNÉES

Les chiffres présentés ont, pour la plupart, été établis grâce à l'analyse du trafic pour chaque vol en particulier. Aux aéroports où le numéro des vols est changé, tous les passagers à bord sont considérés comme débarqués et arrivés et, au départ de l'avion, tous les passagers à bord sont portés à la rubrique des départs. Ainsi, les chiffres des passagers embarqués et débarqués sont directement influencés par les changements d'horaire décidés par les transporteurs aériens compris dans le relevé.

A partir du trimestre de 1968, Air Canada a commencé de faire rapport, avec le trafic nouvellement embarqué, du trafic transbordé de ses propres vols de correspondance, ce qui a donné comme résultat une augmentation importante du courrier et des marchandises embarqués à certains aéroports au cours des troisième et quatrième trimestres de 1968.

In 1968, the top twenty-five airports in Canada were ranked according to total arriving and emplaned passengers as follows:

FACTORS WHICH AFFECTED THE MAGNITUDE OF THE

 Carriers in the survey serving Gander International Airport as of January 1, 1968 were:

Air Canada*
Eastern Provincial

- * provides international and domestic services.
- Additions and Cessations of Services at Gander International Airport Relating to the Survey:

3. Other Factors:

August 26 to September 3, 1966. General railway strike in Canada. November 14 to 27, 1966. Air Canada was on strike.
July 18 to August 8, 1968. Canadian Postal strike.

1968 Traffic reported as "diversions" at Gander was included in the 1968 data since the volume of cargo was significant. In reality the traffic was Gander traffic carried on scheduled flights normally operated non-stop between Vancouver/ Montreal, and Europe.

FACTEURS INFLUANT SUR LES CHIFFRES

 Au 1^{er} janvier 1968, les transporteurs aériens compris dans le relevé qui desservaient l'aéroport international de Gander étaient les suivants;

Air Canada*
Eastern Provincial

- * services internationaux et intérieurs.
- Additions et cessations de services à l'aéroport international de Gander, pendant la période comprise dans le relevé:

3. Autres facteurs:

Du 26 août au 3 septembre 1966: Grève générale des chemins de fer au Canada. Du 14 au 27 novembre 1966: Grève d'Air Canada. Du 18 juillet au 8 août 1968: Grève des postes au Canada.

Le trafic 1968 donné comme "déroutements" à Gander est compris dans les chiffres pour 1968 étant donné le volume assez considérable de marchandises. En realité c'était du trafic à destination de Gander, transporté par des vols à horaire fixe qui normalement font le trajet entre Vancouver/Montréal et 1'Europe sans escale en cours de route.

FACTORS WHICH AFFECTED THE MAGNITUDE OF THE FIGURES

1. Carriers in the survey serving Montreal International Airport, as of January 1, 1968 were:

Aerlinte Eireann Teoranta (Irish) Aeroflot (Soviet Air Lines) Aeronaves de Mexico Air Canada* Air France Alitalia British Overseas Airways Corp. (BOAC) Eastern Airlines K.L.M. - Royal Dutch Airlines Lufthansa Mohawk Airlines Nordair Ltd. Northeast Airlines Inc. Sabena Belgian World Airlines Scandinavian Airlines System Swissair

* provides international and domestic services.

 Additions and Cessations of Services at Montreal International Airport Relating to the Survey:

July 1964 Aeronaves de Mexico began service.

January 1966 Transair Limited (Canada) ceased operations at Montreal International Airport.

May 1966 Aerlinte Eireann Teoranta (Irish)

began service.

March 1967 Aeroflot began reporting.
May 1967 Mohawk Airlines began service.

3. Other Factors:

July 8 to August 20, 1966. Eastern Airlines was on strike.
August 26 to September 3, 1966. General railway strike in Canada.
November 14 to 27, 1966. Air Canada was on strike.
May 1 to October 31, 1967. Expo '67 created unusually high airport activity at Montreal.
May and June 1968. Air France had reduced and sporadic service.
June 16 to July 1, 1968. BOAC was on strike. Only one return flight daily to Britain was operated during this period.
July 18 to August 8, 1968. Canadian Postal strike.

Effective September 1, 1968 all 1st Class mail from the United States to Canada was shipped by air rather than by surface transportation.

October 1968. Eastern Provincial Airways Ltd. began service.

FACTEURS INFLUANT SUR LES CHIFFRES

 Au 1^{er} janvier 1968, les transporteurs aériens compris dans le relevé qui desservaient l'aéroport international de Montréal étaient les suivants:

Aerlinte Eireann Teoranta (Ligne aérienne irlandaise) Aeroflot (Ligne aérienne soviétique) Aeronaves de Mexico Air Canada* Air France Alitalia British Overseas Airways Corp. (BOAC) CP Air* Eastern Airlines K.L.M. - Rpyal Dutch Airlines Lufthansa Mohawk Airlines Nordair Ltée Northeast Airlines Inc. Ouébecair Sabena (Ligne aérienne belge) Scandinavian Airlines System

- * services aériens internationaux et intérieurs.
- Additions et cessations de services à l'aéroport international de Montréal, pendant la période comprise dans le relevé:

dans le relevé:

Juillet 1964 Aeronaves de Mexico inaugure son service.

Janvier 1966 Transair Limitée (Canada) cesse de desservir l'aéroport international de Montréal.

Mai 1966 Aerlinte Eireann Teoranta (ligne aérienne irlandaise) commence à desservir l'aéroport.

Mars 1967 Aeroflot commence à faire rapport.
Mai 1967 Mohawk Airlines commence à desservir l'aéroport.

3. Autres facteurs:

Du 8 juillet au 20 août 1966: Grève d'Eastern Airlines.

Du 26 août au 3 septembre 1966: Grève générale des chemins de fer au Canada.

Du 14 au 27 novembre 1966: Grève d'Air Canada.

Du 1er mai au 31 october 1967: Activité aéroportuaire très intense à Montréal à cause d'Expo 67.

Mai et juin 1968: Air France réduit le nombre de ses vols qui deviennent très irréguliers.

Du 16 juin au 1er juillet 1968: Grève de BOAC.

Pendant cette période, il n'y a qu'un seul vol aller-retour quotidien entre la Grande-Bretagne et Montréal.

Du 18 juillet au 8 août 1968: Grève des postes au Canada.

Depuis le l^{er} septembre 1968, tout le courrier de première classe expédié des Etats-Unis au Canada est transporté par voie aérienne plutôt que terrestre.

Octobre 1968: Eastern Provincial Airways Ltd. commence à desservir l'aéroport.

FACTORS WHICH AFFECTED THE MAGNITUDE OF THE FACTEURS INFLUANT SUR LES CHIFFRES

FIGURES

1. Carriers in the survey serving Vancouver International Airport, as of January 1, 1968 were:

> Air Canada* CP Air* Pacific Western Airlines Ltd. Oantas United Air Lines Inc. Western Airlines Inc.

- * provides international and domestic services.
- 2. Additions and Cessations of services at Vancouver International Airport Relating to the Survey:

Air Canada began direct May 1966 international service. Western Airlines Inc. July 1967 began service.

September 1958 Japan Air Lines Company Ltd. began service.

3. Other Factors:

July 8 to August 20, 1966. United Air Lines Inc. was on strike. August 26 to September 3, 1966. General railway strike in Canada. November 14 to 27, 1966. Air Canada was on strike. February 16 to March 1, 1968. Provincial Government ferry not operated between Vancouver and Victoria due to strike. July 18 to August 8, 1968. Canadian Postal strike.

Effective September 1, 1968 all 1st Class mail from the United States to Canada was shipped by air rather than by surface transportation.

November 10, 1968. Qantas doubles its service at Vancouver to one weekly flight.

Flights to and from Hawaii have been included under "International, Other" for data for 1963 to 1967 inclusive. Beginning with 1968 data, flights to and from Hawaii have been included under the traffic category "International U.S.A.".

1. Au ler janvier 1968, les transporteurs aériens compris dans le relevé qui desservaient l'aéroport international de Vancouver étaient les suivants:

> Air Canada* CP Air* Pacific Western Airlines Ltd. Oantas United Air Lines Inc. Western Airlines Inc.

- * services internationaux et intérieurs.
- 2. Additions et cessations de services à l'aéroport international de Vancouver, pendant la période comprise dans le relevé:

Mai 1966 Air Canada inaugure des vols directs vers l'Europe. Juillet 1967 Western Airlines Inc. entre en service. Septembre 1968 Japan Air Lines Company Ltd. commence à desservir l'aéroport.

3. Autres facteurs:

Du 8 juillet au 20 août 1966: Grève d'United Air Lines Inc. Du 27 août au 3 septembre 1966: Grève générale des chemins de fer au Canada. Du 14 au 27 novembre 1966: Grève d'Air Canada. Du 16 février au 1er mars 1968: Le service de bac du gouvernement provincial entre Vancouver et Victoria est interrompu à cause d'une grève. Du 18 juillet au août 1968: Grève des postes au Canada.

A partir du 1^{er} septembre 1968, tout le courrier de première classe expédié des États-Unis au Canada est transporté par voie aérienne plutôt que terrestre.

10 novembre 1968: Qantas double la fréquence de ses vols vers Vancouver (un vol hebdomadaire).

Les vols à destination et en provenance de Hawai sont inclus dans les vols "internationaux (autres)" de 1963 à fin 1967. A partir de 1968 ces vols sont inclus dans la catégorie des vols "internationaux (États-Unis)".

FACTORS WHICH AFFECTED THE MAGNITUDE OF THE

 Carriers in the survey serving Winnipeg International Airport, as of January 1, 1968 were:

Air Canada*
CP Air
Northwest Airlines, Inc.
Transair Limited (Canada)

- * provides international and domestic services.
- Additions and Cessations of Services at Winnipeg International Airport Relating to the Survey:

3. Other Factors:

July 8 to August 20, 1966: Northwest Orient Airlines Inc. was on strike. August 26 to September 3, 1966. General railway strike in Canada. November 14 to 27, 1966. Air Canada was on strike.

July 18 to August 8, 1968. Canadian Postal strike.

Effective September 1, 1968 all 1st Class mail from the united states to Canada was shipped by air rather than by surface transportation.

FACTEURS INFLUANT SUR LES CHIEFRES

 Au 1^{er} janvier 1968, les transporteurs aériens compris dans le relevé qui desservaient l'aéroport international de Winnipeg étaient les suivants:

Air Canada* CP Air Northwest Airlines, Inc. Transair Limitée (Canada)

- * services internationaux et intérieurs.
- Additions et cessations de services à l'aéroport international de Winnipeg, pendant la période comprise dans le relevé:

3. Autres facteurs:

Du 8 juillet au 20 août 1966: Grève de Northwest Orient Airlines Inc. Du 26 août au 3 septembre 1966: Grève générale des chemins de fer au Canada. Du 14 au 27 novembre 1966: Grève d'Air Canada. Du 18 juillet au 8 août 1968: Grève des postes au Canada.

A partir du 1^{er} septembre 1968, tout le courrier de première classe expédié des États-Unis au Canada est transporté par voie aérienne plutôt que terrestre.

SECTION II

AIRCRAFT MOVEMENT STATISTICS

This Section presents the total number of aircraft movements recorded at the airports contained in Section I.

CRITERIA FOR INCLUSION OF DATA

The data contained herein relate to all aircraft movements at each airport, and therefore includes unit-toll, other commercial, private and Government flights.

Itinerant movements, arrivals and departures entering or leaving the airport control zone, are shown by traffic categories, Domestic; International, U.S.A.; and International, Other. Itinerant movements, specifically the unit-toll scheduled and non-scheduled groups, contain those flights reported in Section I. Movements recorded in the non-scheduled group contain all unit-toll flights other than those operated under Class 1 and 8 licences. The flights shown in Section 1 relate to only a portion of the non-scheduled movements, i.e. to Class 2 "mainline" flights.

COLLECTION OF DATA

All statistics in this Section were collected on a census basis.

PARTIE II

LES MOUVEMENTS D'AVIONS

Cette partie présente le nombre total de mouvements enregistrés aux aéroports énumérés dans la première partie.

LE CHOIX DES DONNÉES

Les chiffres contenus dans cette partie portent sur tous les mouvements d'avions dans chaque aéroport. Ils comprennent donc les vols à taxe unitaire, les autres vols commerciaux, les vols privés et les vols gouvernementaux.

Les mouvements itinérants, les arrivées et les départs correspondant respectivement à l'entrée dans la zone de contrôle de l'aéroport et à la sortie de cette zone, sont présentés selon la catégorie des vols: vols intérieurs; vols internationaux (Etats-Unis) et vols internationaux (autres). Les mouvements itinérants, surtout les vols à taxe unitaire, à horaire fixe et sans horaire fixe, comprennent les vols indiqués dans le première partie. Les mouvements inscrits dans la catégorie des services sans horaire fixe comprennent tous les vols à taxe unitaire sauf ceux qui sont pilotés en vertu de permis des classes 1 et 8. Les vols indiqués dans la première partie portent sur une partie seulement des vols sans horaire fixe, à savoir, les vols de "ligne principale" de la classe 2.

LE RASSEMBLEMENT DES DONNÉES

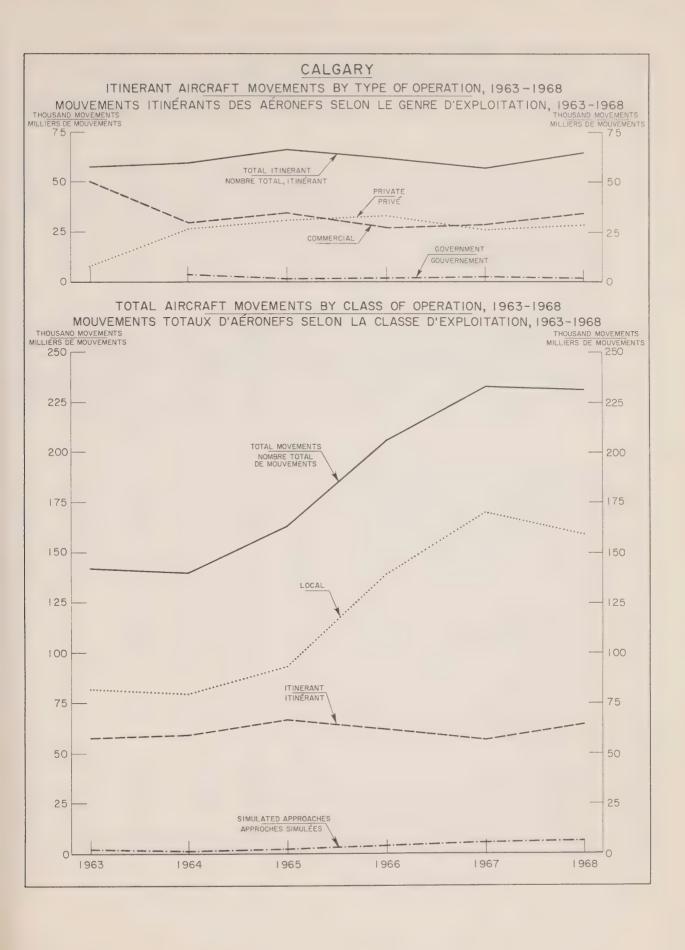

Toutes les statistiques contenues dans cette partie ont été rassemblées par le détail.

## AIRPORT ACTIVITY STATISTICS 1969 DATA

1969 data is enclosed for the twenty-five airports contained in "Airport Activity Statistics 1968", D.B.S. catalogue number 51-203. 1969 data for Fort St. John is also enclosed since Fort St. John moved up into the top twenty-five airports when ranked according to arriving plus enplaned passengers.

You can update Section I of your publication by inserting the enclosed update page for each airport in the appropriate position in the loose-leaf publication. The airports are listed in alphabetical order. A page of 1969 "Factors which affected The Magnitude of the Figures" is enclosed, to be added at the end of Section I.

The update for Section II is in the form of three pages to be added following Winnipeg International Airport, in section II.

It should be noted that Lakehead Airport, listed as airport number 7 in the publication is now called Thunder Bay Airport.

We wish to thank those who have offered suggestions concerning this publication. Wherever possible these suggestions have been, or will be implemented.

In 1969, the top twenty-five airports in Canada, ranked according to total arriving and enplaned revenue passengers, were as follows:

## DONNÉES STATISTIQUES D'ACTIVITÉ AÉROPORTUAIRE DONNÉES POUR 1969

Vous trouverez ci-jointes les données statistiques pour 1969 pour les vingt-cinq aéroports dont traite la publication "Données statistiques d'activité aéroportuaire 1968", numéro de catalogue 51-203, B.F.S. Vous trouverez également les données statistiques de 1969 pour Fort St. John puisque Fort St. John s'est hissé parmi les vingt-cinq premiers aéroports lors du classement selon le nombre de passagers arrivés et embarqués.

Vous pouvez mettre à jour la Partie I en insérant la page ci-jointe pour chaque aéroport à l'endroit approprié de votre publication à feuilles mobiles. Les aéroports sont inscrits selon l'ordre alphabétique. Une page de "Facteurs influant sur les chiffres" pour 1969 est incluse et doit être ajoutée à la fin de la Partie I.

La mise à jour de la Partie II comprend trois pages qui doivent être ajoutées à la suite de "Aéroport international de Winnipeg".

Veuillez prendre note que l'aéroport de Lakehead qui porte le numéro 7 dans la publications, se nomme maintenant aéroport de Thunder Bay.

Nous tenons à remercier les personnes qui ont présenté des propositions pour cette publication. Dans la mesure du possible, nous avons fait ou nous ferons les améliorations proposées.

En 1969, les vingt-cinq aéroports les plus importants selon le nombre de passagers "arrivés et embarqués" ont été les suivants:

ote: Total arriving and enplaned passengers were used as a criteria for ranking since all traffic on board was reported as deplaned as well as arriving at airports where flight numbers were changes. The significance of enplaned plus arriving passengers is that they are a general and relative trend indicator and represent the upper most number of air travellers that may use the terminal facilities. — Nota: Le nombre total des passagers "arrivés et embarqués" a servi de critère pour le classement puisque tout le trafic à bord a été rapporté comme "débarqué" tout autant qu'"arrivé" à des aéroports où les numéros de vol étaient changés. La signification de passagers embarqués et arrivés est une indication de la tendance générale et relative et représente le nombre maximum des passagers qui peuvent employer les installations d'aérogare.

### AIRPORT ACTIVITY STATISTICS 1970 DATA

1970 data is enclosed for the twenty-five airports contained in "Airport Activity Statistics 1968", DBS catalogue number 51-203. 1970 data for Fort St. John and Sept-Iles are also enclosed because these airports have ranked among the top twenty-five airports since the 1968 edition was published. Rankings are based on the total number of arriving passengers plus enplaned passengers.

The 1968 issue of the publication may be updated by inserting the page for 1970 for each airport in the appropriate position in the loose-leaf format. Airports are listed in alphabetical order with the exception of Thunder Bay Airport which was formerly called Lakehead Airport, and Fort St. John which was not in the original 1968 list.

The update for Section II (Distribution of Total Aircraft Movements at Air Traffic Controlled Airports) is in the form of three pages to be added following Fort St. John Airport.

Any suggestions or comments relating to the data or the presentation and contents of the publication may be directed to the Aviation Statistics Centre (D.B.S.) Ottawa, Ontario KIA ON9. Attention: Mr. G.C. Coleman or Mr. W. Burr (Telephone 613-992-2332).

### STATISTIQUE DE L'ACTIVITÉ AÉROPORTUAIRE DONNÉES DE 1970

On trouvera ici les données de 1970 sur l'activité des vingt-cinq aéroports pris en compte dans la publication "Données statistiques d'activité aéroportuaire 1968", numéro 51-203 au catalogue du B.F.S. On trouvera également les données de 1970 pour Fort St. John et Sept-Îles, ces deux aéroports s'étant hissés parmi les vingt-cinq premiers depuis l'édition 1968. Le classement se fait selon le nombre de passagers arrivés et embarqués.

On pourra mettre à jour le numéro de 1968 en insérant la page de 1970 correspondant à chaque aéroport à l'endroit approprié du cahier à feuilles mobiles. Les aéroports sont repris dans l'ordre alphabétique, à l'exception de celui de Thunder Bay (appelé autre fois aéroport de Lakehead) et de celui de Fort St. John (non compris dans la liste initiale de 1968).

La mise à jour de la partie II (Répartition des mouvements d'aéronefs aux aéroports ayant un service de contrôle de la circulation aérienne) comprend trois pages à insérer à la suite de "aéroport de Fort St. John".

On voudra bien adressser toute suggestion ou tout commentaire sur les données, la présentation ou le contenu de cette publication à M. G.C. Coleman ou à M. W. Burr, Centre des statistiques de l'aviation, B.F.S., Ottawa (Ontario) KIA ON9, (Téléphone 613-992-2332).

Note: Total arriving and enplaned passengers were used as a criteria for ranking since all traffic on board was reported as deplaned as well as arriving at airports where flight numbers were changes. The significance of enplaned plus arriving passengers is that they are a general and relative trend indicator and represent the upper most number of air travellers.

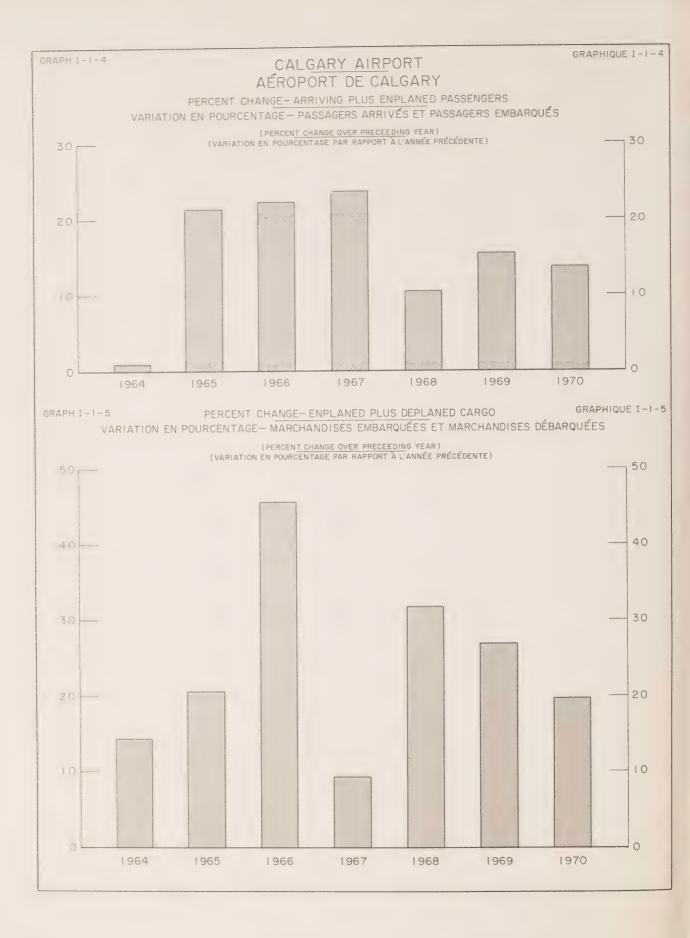

Nota: Le nombre total des passagers "arrivés et embarques" a servi de critère pour le classement puisque tout le trafic à bord a été rapporté comme "débarqué" tout autant qu "arrivé" à des aéroports où les numéros de vol étaient changés. La sign-nombre maximum des passagers embarqués et arrivés est une indication de la tendance générale et relative et représente le nombre maximum des passagers qui peuvent employer les installations d'aérogare.

FORT ST, JOHN AIRFORT — AÉROPORT DE FORT ST, JEAN TABLE 1-26-7. Mainline Domestic Flights, 1970
TABLEMI 1-26-7. Vols intérieurs de ligne principale, 197

## FACTEURS INFLUANT SUR LES CHIFFRES

- 1. Additions and Cessations of the Service Relating to the Survey in 1970.
  - Edmonton International Airport CP Air began operating international scheduled flights Honolulu-Edmonton-Toronto on November 1970.
  - Montreal International Airport Czechoslovakian Airlines began Montreal-Prague service May 4, 1970.
  - Toronto International Airport British West Indian Airways began reporting their Port-of-Spain-Toronto service in January 1970.
  - Victoria International Airport Pacific Western Airlines began operating Victoria-Seattle service October 1, 1970 but data is not available for the period October 1 to November 22.
  - Windsor Airport CP Air discontinued scheduled service to Windsor after September 30, 1970 on their Eastern Canada-Mexico flights.
  - Winnipeg International Airport A strike by airline clerks reduced the services of Northwest Airlines. The period effected was mid-July until the end of the year. CP Air began operating international scheduled flights Honolulu-Winnipeg on October 30, 1970.

#### 2. Other Factors

All Stations

Some flights to and from the United States were cancelled or delayed because of reported "illness" by U.S. air traffic controllers. Flight disruptions of this nature continued from March 26 until mid

Mail traffic at most airports declined in 1970. This was mainly caused by labour-management disputes which led to slowdowns and rotating strikes during the months of May, June, July and August 1970.

- Great Northern Airways declared bankruptcy. No reports were received after October 1, 1970.
- Mohawk Airlines services were curtailed from mid-November through the end of the year by a strike.
- Pacific Western Airlines services were extended in September 1970 to incorporate points formerly served by B.C. Airlines.

1. Additions et cessations de services pendant la période comprise dans le relevé en 1970.

Aéroport international d'Edmonton Le 7 novembre 1970, CP Air a inauguré des vols entre Honolulu-Edmonton-Toronto.

Aéroport international de Montréal Les Czechoslovakian Airlines ont inauguré un service Montréal-Prague le 4 mai 1970.

Aéroport international de Toronto Les British West Indian Airways ont commencé à fournir des données sur leur service Portof-Spain-Toronto en janvier 1970.

Aéroport international de Victoria Les Pacific Western Airlines inaugurent un service Victoria-Seattle le 1er octobre 1970. Les chiffres pour la période s'étendant du 1^{er} octobre au 22 novembre ne sont pas disponibles.

Aéroport de Windsor A partir du 30 septembre 1970 CP Air supprime son escale régulière de Windsor sur la ligne Est du Canada-Mexique.

Aéroport international de Winnipeg Une grève des commis des Northwest Airlines ralentit les activités des Northwest Airlines. Cette grève s'est prolongée de la mi-juillet à la fin de l'année. CP Air inaugure des vols internationaux réguliers Honolulu-Winnipeg le 30 octobre 1970.

#### 2. Autres facteurs

Toutes les aérogares
Certains vols à destination ou en provenance des Etats-Unis sont annulés ou retardés en raison de la "maladie" des contrôleurs de la circulation aérienne aux Etats-Unis. Les perturbations de cette nature ont duré du 26 mars jusqu'à la mi-mai.

On a constaté en 1970, à la plupart des aéroports, une diminution du courrier aérien. La raison principale doit en être recherchée dans les différends partronaux-ouvriers qui ont occasionné des grèves perlées ou tournantes durant les mois de mai, juin, juillet et août 1970.

- Les Great Northern Airways font faillite. Aucun rapport n'est plus reçu après le ler octobre 1970.
- Une grève a interrompu les services des Mohawk Airlines de la mi-novembre à la fin de l'année.
- Les Pacific Western Airlines étendent leurs services en septembre 1970 de façon à y inclure des escales auparavant desservies par les B.C. Airlines.

Airport Activity Statistics was introduced in 1968 to provide detailed information on Canada's twenty-five leading air terminals, annually.

The criterion for ranking is the total number of arriving and enplaned passengers recorded at an airport. Passengers continuing enroute on the same aircraft with a different flight number, will be counted as both arriving and enplaned.

Thunder Bay's drop from 13th to 18th position between 1970 and 1971 is attributable to a revision of last year's data. Explanatory notes about individual airports, and various other factors affecting the magnitude of the figures in this publication have been enumerated on this overleaf.

Inquiries should be directed to Mr. W. Burr, Aviation Statistics Centre, telephone: 613-992-2332.

M S T S L F G P S

Les Statistiques d'activité aéroportuaire furent introduites en 1968 pour procurer annuellement de l'information détaillée sur les vingt-cinq aérogares les plus importantes.

Le nombre total de passangers embarqués et débarqués à un aéroport sert de critère pour en établir l'ordre d'importance. Les passagers qui poursuivent leur trajet dans le même avion, doté d'un numéro de vol différent, seront considerés comme étant arrivés à destination et embarqués.

À cause des revisions apportées aux données de l'an passé, Thunder Bay baissa du 13^e au 18^e rang durant la période 1970 et 1971. Des notes explicatives sur différents aéroports et les divers facteurs qui influencent l'ampleur des données de cette publication sont enumérés au verso.

Pour de plus amples renseignements, veuillez vous addresser à M. W. Burr au Centre des statistiques de l'aviation, téléphone: 613-992-2332.

#### EXPLANATORY NOTES

#### HAMILTON

On September 20, <u>Nordair</u> commenced a Hamilton-Pittsburgh service.

#### MONTREAL

Air France conducted no flights between February 19 and mid-March, due to an employees' strike.

El Al Israel commenced a daily Montreal-Tel Aviv service on March 28. CP Air also began operating between Montreal and Israel.

Mohawk Airlines' services were curtailed because of a strike which lasted until April 14.

TAP Portuguese Airways opened a Montreal-Portugal route three times weekly.

#### OTTALIA

Nordair began operating a daily Hamilton-Ottawa service on April 19, to extend its Montreal-Hamilton route.

#### TORONTO

Mohawk Airlines' services were reduced by a strike which terminated April 14.

#### VANCOUVER

The United States' west coast dockworkers' strike increased air cargo shipments at Vancouver during October, November and December — the diverting of United States' surface traffic to Vancouver for unloading resulted in the air shipment to Vancouver of some freight normally sent by surface transport.

#### VICTORIA

During 1971, mail formerly transported between Vancouver and Victoria by air was carried by truck and ferry.

#### WINNIPEG

Labour problems forced a slowdown in the services of Northwest Airlines until February 1.

#### MAJOR ATRPORTS

Air Canada and BOAC introduced the 350-passenger jumbo jets to their domestic and international services: Air Canada commenced 747 operations domestically in April, internationally in July; BOAC started using jumbo jets on July 11.

#### MAIL

Changes in postal airmail rates and policies increased significantly transborder and overseas airmail shipments. All first class mail is now transported by air to foreign points; various other classes of mail are carried on a "space available" basis.

#### NOTES EXPLICATIVES

#### HAMILTON

Le 20 septembre, Nordair débuta le service Hamilton-Pittsburgh.

#### MONTRÉAT.

Air France n'a pas effectué d'envolée durant la période du 19 février à la mi-mars à cause d'une grève de ses employés.

 $\underline{\text{El Al Israel}}$  inaugura un service quotidien entre Montréal-Tel Aviv le 28 mars. CP Air débuta également un service entre Montréal et Israel.

Les services de Mohawk Airlines diminuèrent à cause d'une grève qui dura jusqu'au 14 avril.

TAP Portuguese Airways inaugura le trajet Montréal-Portugal et y procure trois envolées par semaine.

#### OTTAWA

Nordair inaugura un service quotidien entre Hamilton et Ottawa le 19 avril, ceci étend son trajet Montréal-Hamilton.

#### TORONT

Les services de <u>Mohawk Airlines</u> furent réduits à cause d'une grève qui se termina le 14 avril.

#### VANCOUVER

Aux États-Unis, la grève des débardeurs de la côte ouest augmenta le nombre de chargements de marchandises par voie aérienne durant les mois d'octobre, novembre et décembre. Le détournement du trafic des États-Unis au sol vers Vancouver afin d'être déchargé a abouti à l'envoi vers Vancouver par voie aérienne de chargements normalement expédiés par un mode de transport au sol.

#### VICTORIA

En 1971, le courrier jadis transporté par voie aérienne entre Vancouver et Victoria fut transporté par camion et bac.

#### WINNIPEG

Les problèmes ouvriers contraignirent Northwest Airlines à ralentir ses services jusqu'au 1^{er} février.

#### AÉROPORTS PRINCIPAUX

Pour leurs services intérieurs et internationaux, Air Canada et BOAC introduirent leurs avions à réaction géants de 350 passagers. Les appareils 747 d'Air Canada entreprirent des trajets intérieurs en avril et des trajets internationaux en juillet; BOAC commenca à utiliser ses avions à réaction géants le 11 juillet.

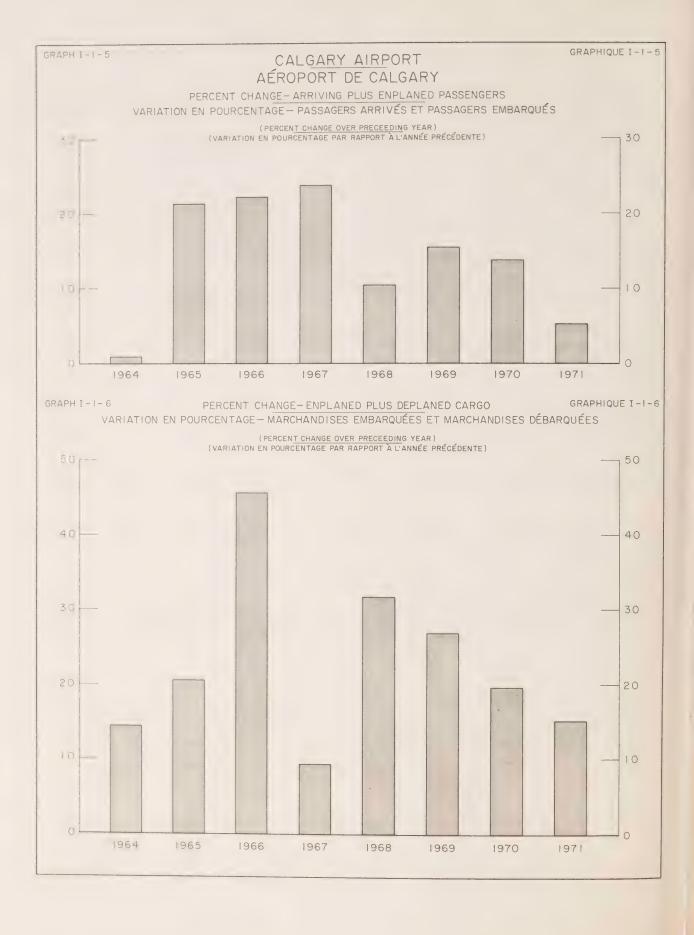

#### COURRIER

Des changements dans la politique et dans les tarifs du courrier postal aérien augmentèrent d'une manière significative les chargements de postes aériennes. Tout courrier de première classe est maintenant expédié par voie aérienne vers l'étranger; diverses autres classes de courrier le sont sur une base "d'espace libre".

#### INTRODUCTION

Airport Activity Statistics was introduced in 1968 to provide detailed information on Canada's twenty-five leading air terminals, annually.

The criterion for ranking is the total number of arriving and emplaned passengers recorded at an airport. Passengers continuing enroute on the same aircraft with a different flight number, will be counted as both arriving and enplaned.

The preliminary annual figures on Victoria International Airport released in Service Bulletin, catalogue number 51-004, Vol. 5, No. 23, have been revised due to changes in the data reported by an airline.

Inquiries should be directed to Mr. T. Moore, Aviation Statistics Centre, telephone: 613-992-2332.

Airport

INTRODUCTION

Les statistiques d'activité aéroportuaire furent introduites en 1968 pour procurer annuellement de l'information détaillée sur les vingt-cinq aérogares les plus importantes.

Le nombre total de passagers embarqués et débarqués à un aéroport sert de critère pour en établir l'ordre d'importance. Les passagers qui poursuivent leur trajet dans le même avion, doté d'un numéro de vol différent, seront considerés comme étant arrivés à destination et embarqués.

Les données annuelles préliminaires, qui ont été publiées dans le bulletin de service, nº 51-004 au catalogue, vol. 5, nº 23, pour l'aéroport international de Victoria ont été revisées en raison de changements apportés aux statistiques soumises par une compagnie aérienne.

Pour de plus amples renseignements, veuillez vous adresser à M. T. Moore au Centre des statistiques de l'aviation, téléphone: 613-992-2332.

#### EXPLANATORY NOTES

#### CALGARY

Hughes Air West, providing transborder service to Calgary, was grounded by a labour-management dispute from January 1 to February 21. Only partial service was offered by Air West from February 21 to mid April.

#### CHATHAM, N.B.

Eastern Provincial Airways suspended service between  ${\tt Chatham}$  and  ${\tt Moncton.}$ 

#### FREDERICTON

Eastern Provincial Airways began serving Fredericton via Halifax and Charlottetown on April 30, 1972.

#### GANDER

The Ministry of Transport introduced a plan to attract airlines to Gander for technical stops. Charter airlines were expected to be the major users of this service.

#### MONTREAL

In 1972 Alitalia reintroduced a Montreal-Chicago service which had not been operated since April 1, 1969. Iberia Airlines of Spain extended its Madrid-Montreal service to include Mexico City and took over Montreal-Mexico traffic rights from Aeronaves de Mexico. Air cargo movements in and out of Montreal International Airport were restricted during the month of November by a labour dispute which saw truck drivers go on strike. Finally, ground crews of Nordair went on strike November 15 and forced the company to cut back on some services. Service to Hamilton and Pittsburgh was halted and later, flights to the north were affected. The strike continued through the end of the year.

#### TORONTO

Air Jamaica began Toronto-Philadelphia-Jamaica service in March 1972. Alitalia Airlines began operating direct Toronto-Italy services on November 3. No Canadian carrier began operating between Toronto and Milan although bilateral negotiations had secured traffic rights for Canada between these points. Lufthansa Airlines began service between Frankfurt, Germany and Toronto on April 30, 1972.

#### VANCOUVER

A strike by west-coast dockworkers in the United States caused many ships to come to Vancouver to unload. This burdened facilities at the Port of Vancouver and caused some shipments to be sent to and from Vancouver by air rather than risk delay in loading and unloading cargo at the docks. These conditions lasted through January and February 1972.

#### WINNIPE

Northwest Orient Airlines did not operate from June 30 until October 4, 1972 as their employees were on strike.

#### ALL CANADIAN AIRPORTS

Canadian air traffic controllers were on strike from January 17-28, thus halting all except emergency services and northern supply flights. Some Canadian based charter flights managed to operate from American airports near the Canadian border e.g. Burlington, Vermont; Buffalo, New York; Niagara Falls, New York; and Seattle, Washington.

Radar technicians began withdrawing their services at selected airports on February 6 and went on strike at all airports on February 12. Bad weather forced the closing of some airports while others conducted reduced operations according to visual flight rules. Some workers returned to their jobs on March 3 and full scale operations resumed March 7.

#### NOTES EXPLICATIVES

#### CALGARY

Hughes Air West, qui assure un service transfrontalier à Calgary, a dû cesser ses opérations du ler janvier au 21 février en raison d'un conflit de travail. Air West n'a pu offrir qu'un service partiel du 21 février jusqu'à la miavril.

#### CHATHAM, (N.B.)

Eastern Provincial Airways a suspendu ses opérations entre Chatham et Moncton.

#### FREDERICTON (N.B.)

Eastern Provincial Airways a commencé à servir Frédéricton en prolongement de son service à Halifax et Charlottetown à partir du 30 avril 1972.

#### GANDER

Le ministère des Transports a introduit un plan pour encourager les compagnies aériennes à faire leurs arrêts techniques à Gander. On s'attendait à ce que les compagnies aériennes opérant des affrètements profitent le plus de ce service.

#### MONTREAL

En 1972, Alitalia a réintroduit son service Montréal-Chicago que la compagnie n'avait pas opéré depuis le 1^{er} avril 1969. Iberia Airlines d'Espagne a ajouté Mexique à son service Madrid-Montréal et a remplacé, Aeronaves de Mexico en ce qui concerne les droits de trafic Montréal-Mexico. Les mouvements aériens de cargo à destination et en provenance de l'aéroport international de Montréal ont été réduits en novembre en raison d'un conflit de travail qui s'est soldé par une grève des conducteurs de camions. Finalement, les employés préposés aux opérations au sol de Nordair se sont mis en grève le 15 novembre forçant ainsi la compagnie à réduire ses activités. Les vols vers Hamilton et Pittsburgh ont dû être arrêtés et plus tard le service vers le nord a été affecté. La grève s'est prolongée jusqu'à la fin de l'année.

#### TORONTO

Air Jamaica a introduit un service Toronto-Philadelphie-Jamaique en mars 1972. Alitalia a commencé à opérer un service direct Toronto-Italie le 3 novembre. Aucun transporteur canadien a initié de service entre Toronto et Milan même si des négociations bilatérales ont accordé des droits d'opération au Canada entre ces points. Lufthansa a introduit un service entre Francfort, Allemagne et Toronto le 30 avril 1972.

#### VANCOUVER

Une grève des débardeurs de la côte ouest des Etats-Unis a eu pour effet de détourner plusieurs bateaux vers Vancouver pour être déchargés. Ceci a surchargé le port de Vancouver et certaines expéditions de marchandises à destination et en provenance de Vancouver ont été faites par air plutôt que d'absorber un retard dans le chargement et le débarquement des marchandises aux quais. Ces conditions ont prévalu en janvier et février 1972.

#### WINNIPEG

En raison d'une grève de ses employés, Northwest Orient Airlines n'a pas opéré du 30 juin au 4 octobre 1972.

#### TOUS LES AEROPORTS CANADIENS

Les contrôleurs canadiens de la circulation aérienne furent en grève du 17 au 28 janvier, causant l'arrêt de tous les vols, sauf ceux faits en cas d'urgence et ceux exécutés en marge de l'approvisionnement du nord. Certains vols d'affrètements d'origine canadienne ont été opérés d'aéroports américains prés des frontières canadiennes e.g. Burlington, Vermont; Buffalo, New York; Niagara Falls, New York; et Seattle, Washington.

Les techniciens en radar ont commencé des grèves tournantes le 6 février et se sont mis en grève générale le 12 février. La mauvaise température a entraîné la fermeture de certains aéroports alors que les autres ont conduit leurs opérations au ralenti suivant les règles de vol à vue. Certains travailleur sont retournés au travail le 3 mars et les opérations ont repr pour de bon à partir du 7 mars.

#### INTRODUCTION

Airport Activity Statistics was introduced in 1968 to provide detailed information on Canada's twenty-five leading air terminals, annually.

The criterion for ranking is the total number of arriving and enplaned scheduled passengers recorded at an airport. Passengers continuing enroute on the same aircraft with a different flight number, will be counted as both arriving and enplaned.

In 1973, the top twenty-five airports in Canada were ranked as follows:

Airport

Aéroport

Toronto International Montréal International Vancouver International Calgary International Winnipeg International Ottawa International Halifax International Edmonton International Edmonton Industrial - Industriel Quebec Regina Saskatoon Victoria International St. John's, Nfld. - Saint-Jean (T.-N.) St. John, N.B. - Saint-Jean (N.-B.) Thunder Bay Sydney Windsor London Fredericton Moncton Sept-Îles Prince George Gander Fort St. John

Where relevant, figures at airports have been updated from those published in our service bulletins to include revised data reported by the air carriers.

Further information can be obtained from Mr. M. Baker, Aviation Statistics Centre, 275 Slater Street, Ottawa, Ontario, KIA ON9 telephone: 613-995-9897.

#### INTRODUCTION

Les statistiques d'activité aéroportuaire furent introduites en 1968 pour procurer annuellement de l'information détaillée sur les vingt-cinq aérogares les plus importantes.

Le nombre total de passagers embarqués et débarqués à un aéroport sur les vols à horaire fixe sert de critère pour en établir l'ordre d'importance. Les passagers qui poursuivent leur trajet dans le même avion, doté d'un numéro de vol différent seront considérés comme étant débarqués et embarqués à cet aéroport.

En 1973, les vingt-cinq aéroports les plus importants du Canada ont été classés dans l'ordre suivant:

	arriving and enplaned
Rank	scheduled passengers
Ordre d'importance	Nombre de passagers arrivés et embarqués sur vols a horaire fixe

Quand c'était applicable, les données aux aéroports ont été révisées de celles publiées dans les bulletins de service pour inclure les corrections soumises par les transporteurs aériens.

De plus amples renseignements peuvent être obtenus en communiquant avec M. M. Baker au Centre des statistiques de l'aviation, 275, rue Slater, Ottawa, Ontario, KlA ON9 téléphone: 613-995-9897.

The data concerning international flights were collected on a census basis from the individual air carriers concerned. The data concerning domestic flights were collected on a mixed 15 percent sample and census basis. The sample is such that each day of the week is sampled twice each quarter and there is at least one sample day in each week. This gives 14 sample days per quarter and 56 sample days per year.

The carriers contributing data concerning international flights are as follows:

Aeroflot Soviet Airlines Aeronaves de Mexico Air Canada Air France Air Jamaica (1968) Ltd. Alitalia Allegheny Airlines American Airlines British Airways British West Indian Airways CP Air Czechoslovakian Airlines Delta Air Lines Eastern Air Lines El Al Israel Airlines Hughes Airwest Iberia Air Lines of Spain

Irish International Airlines Japan Air Lines KLM Royal Dutch Airlines Lufthansa German Airlines Nordair North Central Airlines Northwest Orient Airlines Olympic Airways S.A. Pacific Western Airlines Qantas Airways Scandinavian Airlines System Sabena Belgian World Airlines Swissair TAP Portuguese Airlines United Air Lines Western Air Lines Wien Air Alaska

The carriers contributing data concerning domestic flights are as follows:

Air Canada
Alitalia
British Airways
CP Air
Eastern Air Lines
Eastern Provincial Airways
Lufthansa German Airlines
Nordair
Norcanair
Pacific Western Airlines
Quebecair
Transair

If a carrier lands at the gateway (first Canadian Airport) and departs to another Canadian Airport, his arrival at the gateway is classified as an international flight while his departure is classified as a domestic flight. The arrival at the next Canadian Airport would also be classified as a domestic flight.

If a carrier departs from a Canadian Airport to the gateway (last Canadian Airport), his departure from the previous Canadian airport and arrival at the gateway are classified as a domestic flight while his departure at the gateway is classified as an international flight.

#### Characteristics of the Data

At airports where flight numbers changed, all arriving traffic is reported as being deplaned, although this may not actually be the case.

 $\qquad \qquad \text{Conversely, where a flight number originated all departing traffic is reported as being emplaned.}$ 

"Other International" refers to any international traffic flying to or from any international point other than in the United States, including Alaska and Hawaii Chacun des transporteurs aériens impliqués a fourni les données relatives aux vols internationaux à partir d'un recensement. Les données pertinentes aux vols intérieurs ont été ramassées à partir à la fois d'un échantillonnage de 15 pourcent et d'un recensement. L'échantillonnage est conduit de telle façon que chaque jour de la semaine apparaît deux fois chaque trimestre et qu'il y a au moins un jour d'échantillonnage à chaque semaine. Ceci fait qu'il y a 14 jours d'échantillonnage par trimestre et 56 par année.

Les transporteurs ci-après contribuent aux données concernant les vols internationaux:

Aeroflot Soviet Airlines Aeronaves de Mexico Air Canada Air France Air Jamaica (1968) Ltd. Alitalia Allegheny Airlines American Airlines British Airways British West Indian Airways CP Air Czechoslovakian Airlines Delta Air Lines Eastern Air Lines El Al Israel Airlines Hughes Airwest Iberia Air Lines of Spain

Trish International Airlines Japan Air Lines KLM Royal Dutch Airlines Lufthansa German Airlines Nordair North Central Airlines Northwest Orient Airlines Olympic Airways S.A. Pacific Western Airlines Oantas Airways Scandinavian Airlines System Sabena Belgian World Airlines Swissair TAP Portuguese Airlines United Air Lines Western Air Lines Wien Air Alaska

Les transporteurs ci-après contribuent aux données concernant les vols domestiques:

Air Canada
Alitalia
British Airways
CP Air
Eastern Air Lines
Eastern Provincial Airways
Lufthansa German Airlines
Nordair
Norcanair
Pacific Western Airlines
Quebecair
Transair

Si un transporteur atterrit à un aéroport "de porte d'entrée" (premier aéroport canadien) et s'envole vers un autre aéroport canadien, son arrivée à l'aéroport "de porte d'entrée" est classée comme un vol international tandis que son départ est classée comme un vol domestique. Donc l'arrivée au prochain aéroport canadien sera classée aussi comme un vol domestique.

Lorsqu'un transporteur s'envole d'un aéroport canadien vers un aéroport "de porte d'entrée" (dernier aéroport canadien) ceci est classé comme un vol domestique tandis que son départ de l'aéroport "de porte d'entrée" est classé comme un vol international.

#### Caractéristiques des données

Aux aéroports où les numéros de vol ont changé, tout le traffic arrivant est déclaré comme étant débarqué, même si ce n'est pas toujours le cas.

En contrepartie, aux aéroports où le numéro de vol tire son origine, tout le traffic en partance est déclaré comme étant embarqué.

"Autre international" réfère à tout trafic international ayant une destination ou une provenance autre que les Etats-Unis, incluant l'Alaska et Hawaii. Transborder refers to any international flight flying to or from the United States (including Alaska and Hawaii).

International Charter: The International Air Charter Survey is derived from reports filed on a monthly census basis by commercial air carriers performing charter services into and out of Canada. These carriers report all their charter flights performed by aircraft with a maximum authorized take-off weight of more than 18,000 pounds.

Figures derived from the "International Air Charter Statistics" publication concerning passengers and cargo are shown for each airport in this publication.

#### EXPLANATORY NOTES

#### SEPT-ILES

Eastern Provincial Airways suspended service to Sept-Iles on April 5, 1973.

#### TORONTO

Lufthansa German Airlines began operating into Toronto on May 1, 1973.

#### THUNDER BAY

North Central Airlines increased their transborder service from 2 flights to 4 four flights commencing April 30, 1973.

#### WINNIPEG

Transair inaugurated a new jet service from Winnipeg to Yellowknife on June 1, 1973.

#### ALL CANADIAN AIRPORTS

- 1. The ground personnel of Nordair were on strike from November 15, 1972 to January 20, 1973. Some flight services were offered during the strike, although most of the major routes were closed down. Service returned to normal on January 22.
- The Air Canada machinists' rotating strike from June 1 to June 22, 1973 and the CP Air machinists' strike from July 25 to September 22, 1973 affected their services.
- 3. On July 26, 1973 non-operating rail workers started a series of rotating strikes; this resulted into a general tie-up of rail services. They returned to work in the first week of September. This strike affected the airlines' share of passengers and cargo traffic.
- The fuel shortage resulted in the cancellation of flights by many carriers.

Further information on International Charter Statistics can be obtained from the following publication: Catalogue 51--003 Quarterly.

Further information on Distribution of Total Aircraft Movements at Air Traffic controlled airports can be obtained from Mr. J. Bekooy, Aviation Statistics Centre (613-995-9894).

Transfrontalier se rapporte aux vols internationaux effectués à destination ou en provenance des Etats-Unis (incluant l'Alaska et Hawaii).

Affrètement international: L'enquête sur les affrètements aériens internationaux provient des déclarations mensuelles des transporteurs aériens assurant des services d'affrètement en provenance et (ou) à destination du Canada. Cette enquête est conduite sur la base d'un recensement. Les transporteurs déclarent les vols d'affrètements effectués par des aéronefs d'un poids supérieur à 18,000 livres.

Les données provenant du rapport "Statistique des affrètements aériens internationaux" concernant les passagers et les marchandises sont montrées pour chacun des aéroports dans cette publication.

#### NOTES EXPLICATIVES

#### SEPT-ILES

Eastern Provincial Airways a suspendu ses opérations à Sept-Iles le 5 avril 1973.

#### TORONTO

Lufthansa German Airlines inaugura un service à Toronto le ler mai 1973.

#### THUNDER BAY

North Central Airlines a augmenté son service transfrontalier de 2 à 4 vols par semaine à partir du 30 avril 1973.

#### WINNTPEG

Transair inaugura un service d'avion à réaction entre Winnipeg et Yellowknife le  $1^{\rm er}$  juin 1973.

#### TOUS LES AEROPORTS CANADIENS

- 1. Le premier trimestre de 1973 a subi certains effets à la suite de la grève des préposés aux opérations au sol de Nordair qui s'est étendue du 15 novembre 1972 au 20 janvier 1973. Certains services ont été maintenus durant la grève, cependant la plupart des routes principales n'ont pas été opérées. Le service est revenu à la normale le 22 janvier.
- 2. La grève rotative des machinistes à l'emploi d'Air Canada qui a eu lieu du ler juin au 22 juin 1973 et aussi la grève des machinistes à l'emploi de CP Air qui s'est étendue du 25 juillet au 22 septembre 1973 ont affecté leurs services.
- 3. Les travailleurs non-itinérants des chemins de fer ont commencé une série de grèves rotatives le 26 juillet 1973 et sont retournés au travail dans la première semaine de septembre. Cette grève qui a paralysé les services de chemin de fer a eu un effet certain sur les opérations aériennes en ce qui a trait au transport de passagers et des marchandises.
- La pénurie de carburant a eu pour effet d'annuler les envolées de plusieurs transporteurs.

De plus amples renseignements relatifs aux statistiques des affrètements aériens internationaux peuvent être obtenus de la publication suivante: Statistique des Affrètements aériens internationaux, catalogue 51-003 Trimestriel.

De plus amples renseignements relatifs à la distribution des mouvements d'aéronefs aux aéroports dotés d'une tour de contrôle peuvent être obtenus de M. J. Bekooy au Centre des statistiques de l'aviation (613-995-9894).

#### INTRODUCTION

The Airport Activity Statistics annual report was introduced in 1968 to provide detailed information on Canada's twenty-five leading air terminals.

The ranking criterion is based on the total number of arriving and enplaned passengers recorded at an airport. Passengers continuing enroute on the same aircraft but with a different flight number, are counted as both arriving and enplaned.

In 1974 the top twenty-five airports in Canada were ranked as follows:

Airport

Totolico International
Montreal International
Vancouver International
Calgary International

Ottawa International

#### INTRODUCTION

Le présent rapport sur les activités aéroportuaires qui fut instauré en 1968 a pour but de fournir une statistique annuelle plus détaillée sur les vingt-cinq aérogares les plus importantes au Canada.

Le nombre total des passagers qui arrivent et qui embarquent à un aéroport sur des vols à horaire fixe sert de critère pour établir l'ordre d'importance. Les passagers qui poursuivent leur trajet dans le même avion mais ayant un numéro de vol différent sont dénombrés comme étant "arrivés" et "embarqués" à cet aéroport.

En 1974, les vingt-cinq aéroports les plus importants du Canada ont été classés comme suit:

Number of arriving and enplaned scheduled passengers (000)

Rank	
Ordre d'importance	Nombre de passagers arrivés et embarqués sur vols à horaire fixe (000)
1 2 3 4 5 6 7 8 9 10 11 12 13 14 15	9,837.7 7,515.9 4,321.3 2,382.7 2,051.3 1,696.8 1,344.1 1,335.3 644.7 587.9 541.8 475.8 424.2 387.5 368.5 314.9

20	280.6
21	278.5
22 23	254.3
24	253.0
25	224.4 223.1

Au besoin, les données provenant des bulletins de service ont été revisées pour tenir compte des corrections soumises par les transporteurs aériens.

Prière d'adresser toute demande de renseignement concernant les données de ce bulletin au soin de M. R. Watson, Centre des statistiques de l'aviation, 275, rue Slater, Ottawa, Ontario, KIA ON9 en signalant (613) 995-9897.

#### Collection of Data

The data regarding international flights were collected on a census basis from the individual carriers concerned. Data from domestic flights were collected on a combined census and sample (fifteen per cent) basis. Each day of the week was sampled twice each quarter and there was at least one sample day in each week. This resulted in fourteen sample days per quarter and fifty-six sample days for the year.

The carriers contributing data concerning international flights are as follows:

Aeroflot Soviet Airlines
Aeronaves de Mexico
Air Canada
Air France
Air Jamaica (1968) Ltd.
Alitalia
Allegheny Airlines
American Airlines
British Airways
British West Indian Airways
C.P. Air
Czechoslovakian Airlines
Delta Air Lines
Eastern Air Lines
El Al Israel Airlines
Frontier Airlines
Hughes Airwest
Iberia Air Lines of Spain

Irish International Airlines
Japan Air Lines
KLM Royal Dutch Airlines
Lufthansa German Airlines
Northatines
North Central Airlines
Northwest Orient Airlines
Olympic Airways S.A.
Pacific Western Airlines
Qantas Airways
Scandinavian Airlines System
Sabena Belgian World Airlines
Swissair
TAP Portuguese Airlines
United Air Lines

Western Air Lines Wien Air Alaska

The carriers contributing data concerning domestic flights are as follows:

Air Canada
Alitalia
British Airways
... vir
Eastern Air Lines
Eastern Provincial Airways
KLM Royal Dutch Airlines
Lufthansa German Airlines
Nordair
Pacific Western Airlines
Quebecair
Transair

If a carrier lands at a gateway (first Canadian airport) and departs to another Canadian airport, the arrival at the gateway is classified as an international flight while the departure is classified as a domestic flight.

If a carrier departs from a Canadian airport to a gateway (last Canadian airport) the departure from the previous Canadian airport and the arrival at the gateway are classified as a domestic flight while the departure at the gateway is classified as an international flight.

#### Characteristics of the Data

At airports where flight numbers changed, all arriving traffic is reported as being deplaned, although this may not actually be the case.

Similarly all departing traffic is reported as being emplaned, where the flight number originated

"Other International" refers to any international traffic flying to, or from, any international point other than 'n the United States (including AJaska and Hawaii).

#### Collecte des données

Les données qui s'appliquent aux vols internationaux ont été réunies à partir d'un recensement auprès de chacun des transporteurs aériens concernés. Les chiffres sur les vols intérieurs ont été rassemblés en partie selon un échantillonnage de 15% et en partie selon un recensement. Chaque journée de la semaine a été prélevée deux fois au cours d'un trimestre et il y a eu un minimum d'une journée d'échantillonnage à chaque semaine. Il s'ensuit donc que l'échantillonnage est constitué de quatorze jours par trimestre et cinquante-six jours pour l'année.

Les transporteurs énumérés ci-après ont soumis des données concernant les vols internationaux:

Aeroflot Soviet Airlines Aeronaves de Mexico Air Canada Air France Air Jamaica (1968) Ltd. Alitalia Allegheny Airlines American Airlines British Airways British West Indian Airways C.P. Si un transporteur effectue un atterrissage à un point d'entrée (premier aéroport canadien) et qu'il décolle vers un autre aéroport canadien, l'arrivée au point d'entrée est considérée comme un vol international tandis que son départ est classé comme un vol intérieur.

Par contre si un transporteur décolle d'un aéroport canadien à destination d'un point de sortie (dernier aéroport canadien) le départ du premier aéroport canadien ainsi que l'arrivée au point d'entrée sont interprétés comme vols intérieu tandis que le départ au point de sortie est considéré comme un vol international.

#### Caractéristique des données

Advenant un changement de numéro de vol à l'un des aéroports, toute arrivée est inscrite comme débarquement, même si cela n'est pas véritablement le cas.

Dans le même ordre d'idée, lorsqu'un nouveau numéro de vol est assigné, toute charge au départ est déclarée comme charge embarquée.

"Autre international" comprend tout trafic international à destination ou en provenance d'un point international autre que les Etats-Unis (comprenant l'Alaska et Hawaii).

- ) -

"Transborder" refers to any international flight flying to, or from, the United States (including Alaska and Hawaii).

"International Charter": The International Air Charter Survey is derived from reports filed on a monthly census basis by commercial air carriers performing charter services into and out of Canada. These carriers report all international charter flights performed by aircraft with a maximum take-off weight of more than 18,000 pounds.

Figures derived from the "International Air Charter Statistics" publications concerning passengers and cargo are shown for each airport in this publication.

#### EXPLANATORY NOTES

- KLM Royal Dutch Airlines began operating into Toronto in April.
- 2. As a result of the Canada-United States Bilateral Air Agreement new transborder services were provided at Edmonton International Airport by Hughes Airwest and Northwest Orient Airlines starting in June. In July, Frontier and Western Airlines began providing transborder service to Winnipeg and Edmonton respectively.
- 3. The Canada-United States Bilateral Air Agreement also resulted in Air Canada providing new services. Quebec to New York, Winnipeg to New York, and Edmonton to Calgary to San Francisco flights operated initially in 1974.
- From a negative point the airport fire fighters rotating strikes in April caused cancellations of flights as well as diversions to airports which remained open.
- Fuel shortages resulted in reduced services being offered by many carriers.

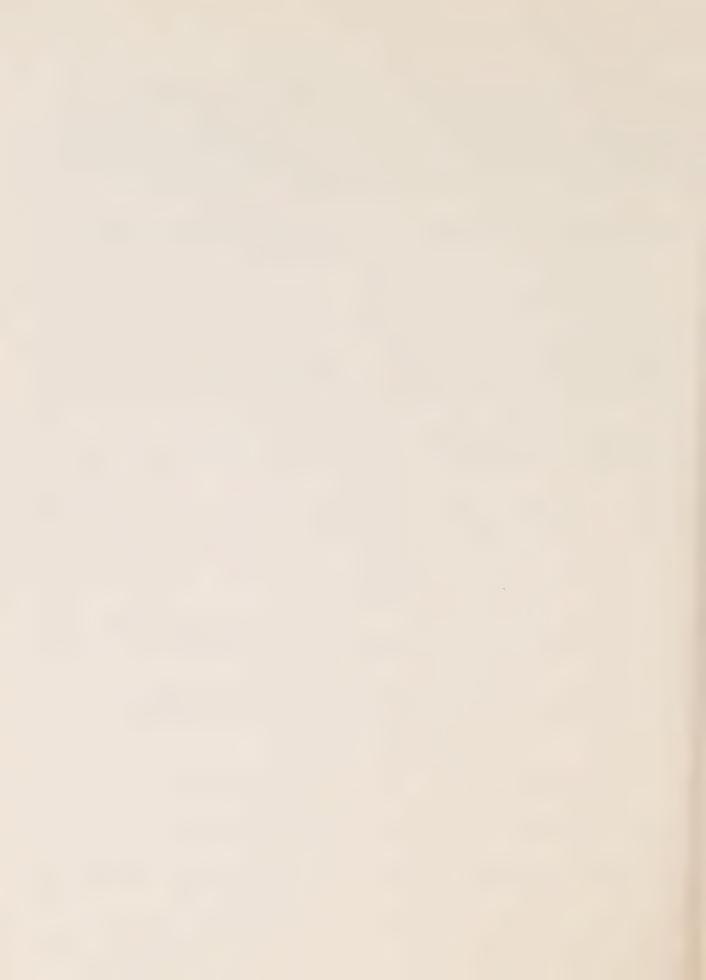

"Transfrontalier" comprend les vols internationaux à destination ou en provenance des Etats-Unis (comprenant l'Alaska et Hawaii).

"Affrètement international": L'enquête sur les affrètements aériens internationaux provient des déclarations mensuelles des transporteurs aériens commerciaux qui assurent des services d'affrètement en provenance et (ou) à destination du Canada. Cette enquête est menée d'après un recensement. Les transporteurs déclarent tous les vols d'affrètements internationaux effectués par des aéronefs dont le poids maximum au décollage est supérieur à 18,000 livres.

Les données provenant du rapport "Statistique des affrètements aériens internationaux" qui s'applique aux passagers et aux marchandises sont montrées pour chacun des aéroports dans la présente publication.

#### NOTES EXPLICATIVES

- La compagnie KLM a initié un service à Toronto à partir du mois d'avril.
- 2. En juin, suite aux récents accords aériens bilatéraux signés entre Canada et les Etats-Unis, les compagnies Hughes Airwest et Northwest Orient Airlines ont assumé des nouveaux services transfrontaliers à l'aéroport international d'Edmonton. A partir de juillet les compagnies Frontier et Western Airlines ont offert de nouveaux services transfrontaliers aux aéroports de Winnipeg et d'Edmonton respectivement.
- 3. Ces accords aériens bilatêraux entre le Canada et les Etats-Unis ont permis à la Société Air Canada de fournir de nouveaux services entre Québec et New York, Winnipeg et New York et entre Edmonton, Calgary et San Francisco.
- 4. D'autre part, durant le mois d'avril, les grèves tournantes des pompiers aux aéroports ont été à l'origine d'annulations de vols et de déroutements vers les aéroports qui demeuraient accessibles.
- 5. Plusieurs transporteurs ont aussi réduit le nombre de services offerts à cause de la crise d'énergie.

### Aircraft Movement Statistics

This section presents the total number of aircraft movements recorded at the previously listed airports.

Further information about the distribution of total aircraft movements at air traffic controlled airports may be obtained from Mr. J. Bekooy, Aviation Statistics Centre (613-995-9894).

# Statistiques relatives au mouvements des aéronefs

Cette partie présente le nombre total de mouvements enregistrés aux aéroports enumerés dans la première partie.

De plus amples renseignements relatifs à aéronefs aux aéroports avec une tour de contrôle peuvent être obtenus de M. J. Bekooy au Centre des statistiques de l'aviation (613-995-9894).

### INTRODUCTION

The Airport Activity Statistics annual report rovides detailed information about Canada's twenty-five eading airports. (Data for Mirabel International irport are also shown.)

The ranking as seen below is based upon the otal number of arriving and emplaned passengers recorded t an airport.

Where necessary, figures have been updated rom those published in the quarterly service bulletins.

In 1975 the airports were ranked as follows:

### INTRODUCTION

Le rapport annuel sur l'activité aéroportuaire présente des données statistiques plus détaillées sur les principales vingt-cinq aérogares du Canada, y compris l'aéroport international de Mirabel.

Le nombre total des passagers qui arrivent et qui embarquent à un aéroport sert de critère pour établir l'ordre d'importance tel qu'il apparaît ci-dessous.

Au besoin, les données provenant des bulletins de service trimestriels ont été révisées pour tenir compte des rectifications apportées par les transporteurs aériens.

En 1975, les aéroports ont été classés comme suit:

Airport

### Collection of Data

The data regarding international flights were collected on a census basis from the individual carriers concerned. Data from domestic flights were collected on a combined census and sample (fifteen per cent) basis. Each day of the week was sampled twice each quarter and there was at least one sample day in each week. This resulted in fourteen sample days per quarter and fifty-six sample days for the year.

The carriers contributing data concerning international flights are as follows:

Aeroflot Soviet Airlines
Aeronaves de Mexico
Air Canada
Air France
Air Jamaica (1968) Ltd.
Alitalia
Allegheny Airlines
American Airlines
British Airways
British West Indian Airways
C.P. Air
Czechoslovakian Airlines
Delta Air Lines
Eastern Air Lines
El Al Israel Airlines
Frontier Airlines
Hughes Airwest
Iberia Air Lines of Spain

Irish International Airlines Japan Air Lines KLM Royal Dutch Airlines Lufthansa German Airlines North Central Airlines Northwest Orient Airlines Olympic Airways S.A. Pacific Western Airlines Oantas Airways Royal Air Maroc Scandinavian Airlines System Sabena Belgian World Airlines Swissair TAP Portuguese Airlines United Air Lines Western Air Lines Wien Air Alaska

The carriers contributing data concerning domestic flights are as follows:

Aeronaves de Mexico
Air Canada
Alitalia
British Airways
C.P. Air
Eastern Air Lines
Eastern Provincial Airways
Hughes Airwest
KLM Royal Dutch Airlines
Lufthansa German Airlines
Nordair
Pacific Western Airlines
Quebecair
Swissair

All arriving traffic is reported as being deplaned at the airport where the flight terminates. Similarly, all departing traffic is reported as being enplaned at the point where the flight originated.

The arrival of a carrier at a gateway (first Canadian airport) from a point outside Canada is classified as an <u>international</u> flight. The departure from the gateway to another Canadian airport is classified as a <u>domestic</u> flight.

The departure of a carrier from a gateway (last Canadian airport) to a point outside Canada is classified as an <u>international</u> flight while the arrival at the gateway from another Canadian airport is classified as a domestic flight.

A flight to or from any international point other than the United States (including Alaska and Nawaii) is referred to as "Other International".

A flight to or from the United States (including Alaska and Hawaii) is referred to as "Transborder".

### Collection des données

Les données qui s'appliquent aux vols internationaux ont été réunies à partir d'un recensement auprès de chacun des transporteurs aériens concernés. Les chiffres sur les vols intérieurs ont été rassemblés suivant un échantillonnage de 15% et selon un recensement. Chaque journée de la semaine a été prélevée deux fois au cours d'un trimestre et il y a eu ur minimum d'une journée d'échantillonnage à chaque semaine. Il s'ensuit donc que l'échantillonnage est constitué de quatorze jours par trimestre et de cinquante-six jours pour l'année.

Les transporteurs énumérés ci-après ont soumis des données concernant les vols internationaux:

Aeroflot Soviet Airlines Aeronaves de Mexico Air Canada Air France Air Jamaica (1968) Ltd. Alitalia Allegheny Airlines American Airlines British Airways British West Indian Airways C.P. Air Czechoslovakian Airlines Delta Air Lines Eastern Air Lines El Al Israel Airlines Frontier Airlines Hughes Airwest Iberia Air Lines of Spain

Irish International Airlines Japan Air Lines KLM Royal Dutch Airlines Lufthansa German Airlines North Central Airlines Northwest Orient Airlines Olympic Airways S.A. Pacific Western Airlines Qantas Airways Royal Air Maroc Scandinavian Airlines System Sabena Belgian World Airlines Swissair TAP Portuguese Airlines United Air Lines Western Air Lines Wien Air Alaska

Les transporteurs suivants ont fourni des données concernant les vols intérieurs:

Aeronaves de Mexico Air Canada Alitalia British Airways C.P. Air Eastern Air Lines Eastern Provincial Airways Hughes Airwest KLM Royal Dutch Airlines Lufthansa German Airlines Nordair Pacific Western Airlines Quebecair Swissair Transair

Toute arrivée est inscrite comme débarquement à l'aéroport où le vol se termine. Dans le même contexte, tout départ est déclaré comme charge embarquée au point où le vol a pris naissance.

L'arrivée d'un transporteur au point d'entrée (premi aéroport canadien) en provenance d'un point hors du Canada est classée comme vol <u>international</u>. Le départ du point de sortie à destination d'un autre aéroport canadien est classé comme vol intérieur.

Le départ d'un transporteur d'un point de sortie (dernier aéroport canadien) vers un point à l'extérieur du Canada est classé comme vol <u>international</u> tandis que l'arrivée au point d'entrée en provenance d'un autre aéroport canadien est classée comme vol <u>intérieur</u>.

Les vols en provenance ou à destination de points internationaux autres que des États-Unis (y compris l'Alaska e Hawaii) sont classés comme "Autres vols internationaux".

Le terme <u>transfrontalier</u> comprend les vols à <u>destination</u> ou en provenance des États-Unis (y compris l'Alaska et Hawaii).

The addition of "International Charter" traffic to the regular scheduled activity provides a rand total for each airport. The International Air Lharter Survey is derived from reports filed on a ensus basis by commercial air carriers performing charter services into and out of Canada. The carriers are required to report all international charter lights performed by aircraft with a maximum take-off weight of more than 18,000 pounds.

### EXPLANATORY NOTES

- The official name of the facility formerly known as Edmonton Industrial Airport is now Edmonton Municipal Airport.
- Royal Air Maroc began operations in Canada at Montreal (Dorval) International Airport on November 1, 1975.
- Mirabel, the new international airport at Montreal began handling regular scheduled flights on November 29, 1975.
- 4. Air Mexico began providing service at Mirabel on December 5, 1975.
- 5. The postal strike from October 21 to December 3 resulted in a reduction of mail handled at most airports during the fourth quarter.
- The data for transborder traffic at Victoria International Airport for the month of December were not available and have not been included in the annual total.
- In April 1975 Swissair was granted authority to operate services into Toronto.

L'ajout des données relatives aux affrètements aériens internationaux au trafic régulier à horaire fixe fournit un total global pour chaque aéroport. La statistique sur les affrètements aériens internationaux provient des rapports déposés et recensés auprès des transporteurs aériens commerciaux qui procurent des services d'affrètement en provenance et à destination du Canada. Ces transporteurs sont tenus de déclarer tous les vols d'affrètements internationaux effectués par des aéronefs dont le poids maximum au décollage est supérieur à 18,000 livres.

### NOTES EXPLICATIVES

- 1. L'aéroport Edmonton Industrial est maintenant connu sous sa nouvelle appellation officielle Edmonton Municipal.
- La compagnie Royal Air Maroc a commencé à offrir un service à l'aéroport international de Montréal (Dorval) le 1^{er} novembre 1975.
- Le nouvel aéroport international de Montréal, Mirabel,a commencé à recevoir les vols à horaire fixe le 29 novembre 1975.
- La compagnie Air Mexico a commencé à offrir un service à l'aéroport international de Montréal (Mirabel) le 5 décembre 1975.
- 5. La grève des postes du 21 octobre au 3 décembre a eu pour effet de réduire le volume du courrier à la plupart des aéroports pendant le quatrième trimestre, 1975.
- 6. Les données de trafic transfrontalier à l'aéroport international de Victoria n'étaient pas disponibles pour le mois de décembre et par conséquent ne sont pas incluses avec les chiffres du total annuel.
- La compagnie Swissair a reçu l'autorisation d'offrir des services réguliers à Toronto en avril 1975.

#### Aircraft Movement Statistics

This section presents the total number of aircraft movements recorded at the previously listed airports.

Further information about the distribution of total aircraft movements at air traffic controlled airports may be obtained from Mr. J. Bekooy, Aviation Statistics Centre (613-995-9894).

# Statistiques relatives au mouvements des aéronefs

Cette partie présente le nombre total de mouvements enregistrés aux aéroports enumerés dans la première partie.

De plus amples renseignements relatifs à aéronefs aux aéroports avec une tour de contrôle peuvent être obtenus de M. J. Bekooy au Centre des statistiques de 1'aviation (613-995-9894).
